

# ABOUT MY EDUCATION

by Marco Antonio Alvarez

I was born in Mexico twenty years ago when my dad, Pablo, and my mom, Luisa, decided to have one more child. I am the youngest of their three children and the most beautiful of them, too.

I went to school in my country for thirteen years. I actually finished junior high school in Mexico. Then, I went to high school. I finished one year of high school. That was my last year at school in Mexico. I stopped going to school because I came to the U.S. When I got here, I went to high school for about six months. I was in the tenth grade. Then, I dropped out because it was necessary for me and my family to get more money from somewhere. That's why I stopped going to school and got a job instead.
